CONTRARY TO THE GENERAL IMPRESSION the best time to prepare a Lily bed is in the Autumn season. They will grow in any good garden loam provided it is well drained, but a sandy soil is more desirable. The land should be prepared by deep spading but no manure should be mixed therewith. A mulching set on can be used to good advantage so that the rains will carry the fertilizing portions into the soil. Bulbs should be set from six to eight inches deep according to size, and planted on their side to guard against excessive moisture getting into the scales. When severe weather sets in a mulching of manure, leaf mold or similar material should be placed to the extent of about six inches and removed in the spring when danger from frost has passed. Lilies succeed best in a partially shaded situation, although they can also be planted in full sun, provided the soil is kept cool during the growing season. Particularly recommended for planting among shrubbery or rockery. The varieties mentioned in this list are all perfectly hardy and will perpetuate themselves for many years.

NOTE—Occasionally some of the Japanese Lilies do not arrive until after the ground is frosted; this, however, can be easily overcome by covering the ground where the bulbs are to be planted with some loose leaves or manure, and this slight trouble will be fully repaid when the flowering season comes around.

LILY OF THE VALLEY

Lily-Of-The-Valley, Large-Flowering German Pips.

Produces strong spikes of flowers, about 15 to 18 inches in height, bearing from twelve to twenty extra large pure white bells. Delightfully fragrant, for pot culture or forcing.

Price, per bundle, 25 pips. $0.40
Price, 4 bundles, 100 pips. $1.50

LARGE IMPORTED CLUMPS.

For Outdoor Planting.

Plant in a shady, moist position. Very hardy. Each, 30c; doz., $1.00.

JAPANESE EASTER LILY

(Lilium Longiflorum, or Oriental Lily.)

For indoor pot culture.

First Size Bulbs, which should produce from 1 to 6 flowers, per doz., 25c each; $1.50 per 100; $11.00 for 250.

Extra Size Bulbs, which should produce from 6 to 10 flowers, per doz., 25c each; $1.00 per doz.; $2.00 for 25; $5.00 per 100; $15.00 for 250.

Manmoth Bulbs, which should produce up to 15 flowers on a single stem, per doz., 25c each; $3.00 per 25; $5.00 per 100; $16.00 per 250.

TENNIFOLIUM

A miniature Lily having slender stems, 12 inches high, bearing about 10 fiery scarlet flowers. A gem for cutting, and easily grown in pots or in a warm, dry border, early, 15c each; $1.50 doz.; $12 per 100.

SUPERBUM

(Turk’s Cap Lily.)

One of our native species. When established in a good rich soil, it will produce upwards of 50 beautiful orange, tipped red, spotted flowers in a pyramidal cluster. 3 to 5 feet. Each, 5c; doz., $8.00 per 100.

CANADENSE

Our beautiful native "Canadian Lily." Bright yellow shades with copious spots of red. Blooms in June and July. 2 to 3 feet high. Each, 5c; doz., $8.00 per 100.
L. AURATUM.
The "Queen" of Lilies.

Justly famous as the most beautiful and fragrant of all Lilies, flowers white, dotted crimson, with a clear, broad, golden band running through the center of each petal.

Bulbs. Each 2 for Doz. $3.00
8 to 9... $0.15 $0.40 $1.00 $5.00
9 to 11... $0.25 $0.70 $1.75 $5.50
Mammoth... $3.00 2.50 17.00

L. SPECIOSUM MELPOMENE.

A most beautiful variety. Flowers frosted white, spotted, clouded and bearded with pinkish crimson. Petals deeply recurved and widely bordered.

Bulbs. Each 2 for Doz. $3.00
8 to 9... $0.20 $0.50 $1.25 $5.00
9 to 11... $0.25 $0.70 $1.75 $5.50

L. HENRYI.

(The Yellow Speciosum.) A new, rare and very beautiful Lily from China. It is very hardy, a strong, healthy grower, and without doubt one of the best Lilies for garden culture and most effective for massing.

The flower stalks 3 to 5 feet high, carry 3 to 8 large flowers each, the color a rich apricot-yellow, lightly spotted with brown; the shape and size of the flowers and the habit of growth has suggested the name "Yellow Speciosum," which class it resembles.

Bulbs. Each 2 for Doz. $3.00

L. ELEAGANS.

ROBUSTA.

Magnificent large flowers, orange, dotted black. Each 15c; doz. $1.25.

Unless otherwise noted we sell 25 bulbs at the one hundred rate.

L. ELEAGANS.

ALEXANDER JORG.

One of the most beautiful of the Elegans family. Rich apricot spotted. Each 75c; doz. $1.50.

WHITE CORFU LILY.

(Funkia.)

Produces delicious fragrant snow-white blooms often six inches in length. Blooms in July and August. First size, each 15c; doz. $1.50; clumps each 25c; doz. $2.50.

LEMON DAY LILY.

(Hemerocallis Flava.)

Bears extremely fragrant yellow blossoms in June and July; grassy-like foliage.

First size, each 15c; doz. $1.50; clumps each 25c; doz. $2.50.

Order Early, it will be to your advantage.
A FEW WORDS ABOUT OURSELVES

In a short period of time, as years go, we have built up a business in Horticultural lines that is second to none in the Western country. There must be a reason for it, there is, and it can be explained in one word, "QUALITY." We shall continue to work along the lines of the past, namely, to supply

The Best Seeds, Bulbs and Plants
that can be secured and at

Moderate Prices

Where a personal visit to our store is possible, it will be a pleasure for our experienced salesmen to show stocks and supply needed cultural information, otherwise we shall be glad to deliver to your door either in Chicago or suburbs anything listed in this catalogue to the amount of One Dollar or upward.

WE WOULD LIKE TO "MAKE YOUR GARDEN GLAD."

Yours very truly,

Winterson’s Seed Store,

OUR SPRING CATALOGUE FOR 1910

Will be issued January 1st and we shall be pleased to mail you a copy. Kindly send us your name and address NOW. If you wish to “Make Your Garden Glad” it will be worth your while to get a copy of this book.

Non-Warranty While we exercise the greatest care to have all Seeds, Plants and Bulbs pure and reliable, it is here-
Flowering Bulbs—For Fall Planting

To obtain winter and spring flowers in the house, and beautiful garden and lawn effects during the spring season, it is necessary to plant the bulbs in the fall. There are two classes, namely, what is known as “Cape” and “Dutch” bulbs. The “Cape” varieties are not hardy but must be protected during the winter. Pot them and place them out-of-doors, watering them frequently as the soil’s needs demand, and, upon the approach of frosty nights, store them in a cool, light place. The best place for them is in a coldframe or deep pit, but a light, cool room will serve the purpose very well indeed. Here the temperature will never rise very high, thus permitting the plants to make a good strong root-growth, without much leaf growth.

Freesias and oxalis, planted in August, can be brought into bloom at Christmas time very readily. They must be brought in from the coldframe or pit late in October or early in November, and grown in a house with a temperature of about 50 or 55 degrees at night.

The soil for all bulbs should be rich and well drained. A soil composed of equal parts of well-rotted sod, sharp sand, leaf mold, and well-decayed manure, preferably horse manure, is desirable.

Dutch bulbs are hardy, and it is not so necessary to guard them against the cold. As a matter of convenience, however, it is better to store them where they can be gotten at easily at any time during the winter. For this reason a deep cold frame, which can be kept dark, will be found an ideal place, but if you have a cool cellar in which the air is not too dry, equally good results can be had. Cover the pots with a four inches of soil, and water if the earth shows any signs of drying out.

From the pit or cellar the bulbs can be brought to the house or greenhouse when wanted for flowering. During the early part of winter, say in December, it will take at least four weeks, and maybe as many as six, to bring the Dutch bulbs into flower. As the winter advances, the time for forcing will seldom run over four weeks, and perhaps a few days less.

The making of the bulb beds out-of-doors is not at all intricate. The bed should be dug out about four inches deep, and the soil which is taken out laid to one side. Then the bed should be spread to a depth of six or eight inches, turning under some very well decayed manure, which should be put under deep enough so that it will not come in contact with the bulbs. After having smoothed the soil, spread about one-quarter to one-half inch of sand over the bed, and in this mark out the design desired, or indicate where you wish to have the rows of plants. The sand is put in as a sort of prevention against the rooting of the bulbs.

When the bulbs have been planted out-of-doors, they will need no further attention until the ground freezes. Then give the bulbs a light mulch of strawy manure, say four or five inches.

WE IMPORT ONLY STRICTLY FIRST SIZE BULBS
Winterson’s Hardy Sweet Scented Peonies

THE OLD FASHIONED "PINEYS" of our grandmother’s time have during the past few years been improved upon to such an extent that grandmother would hardly now recognize the wonderfully large and fragrant blossoms produced today as being of the same stock which she cherished as the head of her garden family.

PEONIES, as they are called today, have no competitor as a hardy plant either for decorative effect in the lawn or shrubbery border or as a cut flower. Their freedom from insect life, absolute hardiness and free blooming qualities is the reason that every flower lover should plant at least a few of them. To obtain best results plant Peonies in Autumn. Our list below contains the "cream" of up-to-date improved varieties.

**Choicest Improved Named Varieties**

HARDY EVERGREEN LAWN GRASS SEED (NONE BETTER).
Winterson's Early Flow- ering Single Tulips

Are absolutely hardy; grow most anywhere, and it is seldom indeed that they make a failure. Bulbs may be left in the ground for years and good blooms will be produced for several seasons. The following varieties have been selected from many hardy sorts, and are considered as being the most satisfactory both for indoor and outdoor culture.

Single Tulips in Separate Colors

These are composed from varieties of same height and which bloom at the same period—especially recommended to purchasers who do not desire to go to the expense of purchasing named varieties. N. B. We do not recommend double varieties in this connection.

The Grand bedding Tulip. KEIZERSKROON.

A bed of this most handsome of Tulips is certainly a dazzling sight. The combination of colors, Brilliant Red and Clear Golden Yellow, cannot be surpassed by any other variety. The flowers are of extra large size with very strong stems which protect them against rain and wind storms; furthermore on account of their general strong character they make a perfect showing for a longer time than any other variety. We have received from a specialist in Holland an exceptionally fine stock of this Tulip and offer them at the low prices below.

Note—Keizerskroon is also a most desirable sort for forcing and house culture. Price regular first size bulbs, each 4c; doz 30c; per 100 $1.50; per 1000 $10.00.

Price 'Mother' Bulbs, extra fine, each 5c; doz. 40c; per 100 $2.75; per 1000 $25.00.

Single Named Early Tulips

Very desirable for bedding purposes. White, red and yellow sorts, of about the same height, planted in lines of three or four rows of each color, form with their long-stalked flowers, beds of surpassing grandeur. Those sorts marked with an asterisk (*) are the earlier kinds, which are not only valuable for bedders, but succeed admirably if forced in pots. Those not so marked are not recommended for pot culture. A's flower together, B's follow, etc.

Double Named Early Tulips

FOR LATE BLOOMING TULIPS, WE PARTICULARLY RECOMMEND SCARLET (VANRIAN, PICOTEE OR MAIDEN'S BUSH) AND BOUTON D'OR. SEE PAGE 8 FOR DESCRIPTION AND PRICES.

A BED OF TULIPS PLANTED THIS FALL WILL PRODUCE A WEALTH OF BLOOM NEXT SPRING.
WINTERTSON’S SEED STORE

Winterson’s Single, Late or May Flowering Tulips

**Scarlet Gesneriana.** This is a tall growing, late blooming Tulip, and undoubtedly one of the finest in cultivation. The flowers are as large as an coffee cup and borne on stout stems nearly 18 inches from the ground. The color is brilliant, crimson scarlet, with a large peacock-blue blotch in the center, and of very strong fragrance. No Tulip that has come under our observation is at once so brilliant and lasting. They remain in bloom four weeks or more, and are admirable when planted in groups among evergreens and shrubbery where they show up to splendid advantage against the dark background. 3 cents each; 25 cents per dozen; $1.25 per 100; $12.00 per 1,000.

**Boulns, Violets.** Tall and brilliantly variegated, white ground, banded lilac purple or black. 3 cents each; 25 cents per dozen; $1.25 per 100; $10.00 per 1,000.

**Boulns, Roses.** White ground, shaded rose; tall, very showy; bloom in May. Fine mixture. 3 cents each; 25 cents per dozen; $1.25 per 100; $10.00 per 1,000.

**Boulns, D’Or.** The finest and deepest golden yellow Tulip. Splendid for cutting. Flowers are a handsome globe shape. 3 cents each; 25 cents per dozen; $1.25 per 100; $10.00 per 1,000.

**Maevasia.** A glowing crimson-scarlet, with deep zone of black and yellow; very fragrant; splendid for cutting. 3 cents each; 25 cents per dozen; $1.15 per 100; $9.00 per 1,000.

**Pennsylvania White.** A large pure white flower; fine stems. 4 cents each; 25 cents per dozen; $1.30 per 100; $14.00 per 1,000.

**Sweet Nancy.** Pure white, margined and penciled on the edges with pink. 3 cents each; 25 cents per dozen; $1.30 per 100; $11.00 per 1,000.

**Parrot Tulips.** These gay flowers of great size and beautiful variegation flower about thirty days later than the earlier kinds. The fringed and corrugated petals with their wonderful color variation make not only the most brilliant possible flower bed but admirable cut flowers for vases. The thick petalized flowers with long stems keep well after being cut. Extra fine mixed, each, 3 cents; per dozen 25 cents; per 100 $1.00; per 1,000 $5.00.

**Dutch Tulips.** The finest class of late flowering Tu- lips in existence. Flowers are brilliant, self colored, borne on strong stems, many of them 2 feet high. The colors surpass in brilliancy anything hitherto known in Tulips, and are of almost every conceivable color, from pale blush to the brightest red, lilac, light blue, and pur- ple to almost black. 3 cents each; 25 cents per dozen; $1.30 per 100; $12.00 per 1,000.

**Winterson’s May-Flowering Tulip Mixture.** This mixture contains many of the above named sorts and other new and rare varieties. We mix it ourselves and know just what it contains. The result from a planting of 100 bulbs will be dazzling and we strongly advise our customers to order at least this many bulbs. Each 4: 35 cents per dozen; 60 cents for 25; $1.75 per 100; $4.00 for 250; $15.00 per 1,000.

**May Flowering Tulips**

**Are Especially Desirable for**

**CUT FLOWERS**

Plant in the Shrubbery Border, etc.

---

Winterson’s Grand Early Blooming Tulip Mixtures

Our Tulip mixtures contain a great variety of colors and will produce excellent flowers. They are not, of course, as desirable for bedding, where uniformity is desired, as the named or separate colors, however, they give very fine results in this connection, and for cut flowers they are sure to give much pleasure. Desirable for planting in shrubbery borders, etc. We import only first size bulbs.**

**SINGLE.**

**Special Mixture.** Made up of named sorts, proper proportions of bright colors, blooming together and of uni-

PLANT CROCUS in the Lawn. They Will Not Interfere With the Grass.
Winterson's Large Flowering Dutch Hyacinths

The Hyacinths are deservedly the most popular bulbs grown. They are extremely fragrant and can be obtained in many lovely shades. It is the ideal flower for indoor culture, in the fall and winter, as well as being most satisfactory for bedding and general outdoor culture. Our bulbs are especially selected and can be depended upon to produce excellent results.

Winterson's Collections of Hyacinths for Beds

A "RIBBON" BED OF 98 FINEST, FIRST-SIZE, NAMED HYACINTHS FOR $7.00

"RIBBON" HYACINTH BED No. 1.

This collection is designed to be planted in an oblong bed 2 feet long by 1½ feet wide, requiring ninety-eight Hyacinth-sized bulbs, containing fourteen bulbs each, planted 8 inches apart.

Center row—14 Roi des Belges (dark red).

One row each side of the blue—28 King of the Blues (light pink). One row each side of center—28 L'Innocence (pure white). (light blue).

"RIBBON" BED No. 2 OF UNNAMED HYACINTHS.

This collection contains 98 Unnamed Hyacinths, to be planted in the same manner as above, your selection of colors, for $5.00 (by express).

Winterson's
"Special Grade"

Forcing and
Bedding

Dutch Hyacinths

The bulbs under this heading are of a much larger size than those put in ordinary mixtures; in fact, most of them are entirely as large as those often sent out as "First Size Named" by some dealers. They will produce grand spikes of blooms.

Prices for Winterson's Forcing and Bedding Hyacinths.

Single. Each. Doz. 100

Scarlet. $0.60 $9.50 $35.50

Rose ... $0.55 $9.50 $35.50

Winterson's
"Mixed Grade"

Dutch Hyacinths

For Indoor Culture and Bedding

These Hyacinths are all large-sized healthy bulbs, well adapted for outdoor planting. The colors being kept separate, the purchaser can make his selection of colors as his taste may dictate. The bulbs can also be forced for winter flowering or cutting. Single Mixed Varieties.

Pure white, blush white, rose, red, light blue, dark blue, yellow, mixed all colors. Each 1 cent; dozen 10 cents. 100 for $2.00.

Double Mixed Varieties.

Pure white, blush white, rose, red, light blue, dark blue, yellow, mixed all colors. Each 1 cent; dozen 10 cents. 100 for $2.00.

Selected Named Dutch Hyacinths—Guaranteed Strictly First Size

Where distinct colors are desired there is nothing more elegant in Hyacinths than the best named varieties.

We mention below a selection that cannot be surpassed. As a general rule the single flowering varieties will be found surer bloomers and more effective in display than the double sorts. Specially suited for forcing in pots or glasses or for high class bedding, at a uniform price of 10 cents each per dozen $1.00; per 100 $8.00.

SINGLE RED AND ROSE HYACINTHS.

Cardinal Weissman. Fine rose.

Gertrude. Rosy pink, large, erect spike.

Baroness von Thurn. Snow white, large compact truss of many bells.

Grand Perseverance. Finest pink white.

Bouquet. Beautiful silvery blue, compact.

SINGLE LIGHT AND DARK BLUE HYACINTHS.

Bouquet. Very fine; pure white; very large trusses.

SINGLE YELLOW.

King of the Yellows. Pure yellow.

Gladiator. Pink, late.

La Tour d'Auvergne. Pure white.

DOUBLE RED AND ROSE HYACINTHS.

Bouquet. Medium red.

La Virginité. Rosy center.

DOUBLE WHITE HYACINTHS.

Duchess. Clear blue, large spike, early.

Grape Hyacinths.

White, per dozen. . . . . . . . $0.25 per 100. $1.00

Per dozen . . . . . . . . . . . . . $0.25 $1.00

THE Grand Shrub HYDRANGEA P. G. Planted This Fall Will Bloom Freely Next Summer.
Winterson's Selected Hyacinths

(DCONTINUED)

Dutch Roman or Miniature Hyacinths

Also Called "PAN" HYACINTHS.

A very simple method of growing Hyacinths for winter flowering in the house is to start them in earthen pans, planting only one kind of Hyacinth in one pan, in order to have them all bloom at once, and to have them all the same shade. The varieties mentioned below are the best sorts for this mode of culture. By planting 10 or 12 of these "Pan Hyacinths" in a pan 8 to 9 inches in diameter the most satisfactory results will be obtained. They come into flower after the French Roman Hyacinths and are extremely fragrant.

These (so-called) Miniature Hyacinths can also be planted in the open ground with good results. While they do not as a rule produce as large flowers as those Hyacinths classed on page 6, they are, however, of sufficient size to make a good showing either for bedding or to grow for cutflowers.

VARIETIES AND PRICES

Gertrude. Fine pink.
Gigantea. Pale pink.
Baroness Von Thuyll. Snow white.
L'Innocence. Pure white, large spike.
Grand Maitre. Bright blue.
Czar Peter. Porcelain blue, extra fine.

Price of any of above named varieties, 6c; per doz. 40c; or $2.50 per 100.

Growing Hyacinths in Water

A very novel manner of cultivating Hyacinths is to grow them in water. (See cut above.) We offer glasses especially made for this purpose as per illustrations opposite. The method of culture is as follows: Put bulbs in glass with ordinary water so that the bottom or root part of bulb is covered, then place in a cool dark room or closet, leaving there until roots touch the bottom of glass. Afterward take to the light, when a light paper cone should be placed over the top for about two weeks in order to draw up the spike. It is usually necessary to replenish water weekly and a few small pieces of charcoal placed in the glass will tend to keep water sweetened.

NOTE.—The selected named Hyacinths are most suitable for growing in the above named manner.

French Roman Hyacinths

are not hardy in the North. They are, however, superb for house culture. Several plantings can be made throughout the season, thus insuring a continuation of bloom.

Hyacinth Glasses FOR GROWING HYACINTHS IN WATER

Belgian Tall, each 15c; doz. $1.65.
Tye Shape, 25c each; per doz. $2.50.

French Roman or Christmas Hyacinths

Make splendid plants for the window garden, grown in whatever device may be desirable. They should be treated in all respects like the other classes, only that they come into flower much earlier, and should, for first flowers, be brought in by the 15th of November; by so doing, they will give their flowers in perfection by Christmas.

The great beauty of this class of Hyacinths is their profusion of flowers, each bulb giving from three to six spikes, according to the size and strength of bulb. The flowers are smaller than those of the Dutch Hyacinths, but more graceful. The bulbs being small, three can be put in a 6-inch pot. Mailed postpaid by express.

Clumps of Peony Festiva Maxima

PLANTED THIS FALL WILL BLOOM FREELY NEXT SUMMER.

See page 6 for particulars.

WE GUARANTEE All Bulbs and Plants Listed Herein to be ABSOLUTELY FIRST QUALITY.
Narcissus or Daffodils

succeed in any situation—and in any kind of soil, wet or dry, under the trees or among the grass. Once well established they will need no further care for years; each succeeding year the clumps will multiply in size and strength, producing blossoms in endless quantities. The Polyanthus varieties are not hardy in the North, but for house culture they are superb. The hardy varieties also succeed well in the house or greenhouse. Our list following is composed of the best sorts only.

Polyanthus Narcissus
(Or Nosegay Daffodils.)

GIANT "PAPER WHITE" NARCISSUS, (Grandiflora.)

An improved large-flowering form of the Paper White, possessing all the good qualities of that popular and easily-grown variety and which on account of its larger flowers, is now the principal forcing sort. Does splendidly in water, like the Chinese Sacred Lily. (See cut.) 5c each; 25c per doz.; $1.50 per 100;

Double Roman. Double white, with orange centre; very fragrant. 4c each; 25c per doz.; $1.50 per 100.

Grand Soleil d'Or. A charming rich yellow flower, with deep, reddish cup. Thousands of this variety are grown for sale in the London market. 5c each; 45c per doz.; $2.50 per 100.

White Pearl. Large, pure, satiny white; beautiful. 5c each; 45c per doz.; $2.50 per 100.

Grand Monarque. This variety is one of the finest of all the Polyantha section, and will give excellent results when grown in water. The bulbs which we offer are of enormous size, and will throw up a profusion of large white flower spikes which are crowned with a lemon-yellow cup. Each 5c; per doz. 45c; per 100 $2.75.

Please remember that all our Bulbs and Plants are Guaranteed Absolutely First Quality.

ORDER EARLY. IT WILL BE TO YOUR ADVANTAGE.
Narcissus or Daffodils—Continued

VON SION. The famous "old double yellow Daffodil." Rich golden yellow perianth and trumpet. One of the best forcing sorts as well as being perfectly hardy. Each 3 cents; per dozen 30 cents; per 1,000 $1.60; per 2,000 $14.96.

VON SION. "Double Nose." Extra large bulbs capable of producing two to three flowers each. Each 4 cents; per dozen 40 cents; per 100 $2.50; per 1,000 $21.00.

GOLDEN SPUR. One of the grandest Daffodils, with extra large, bold, rich yellow flowers, foliage very broad and striking. It is of unusually robust habit, and unsurpassed for gardens, pots or forcing. Early and extremely free flowering. 3 cents each; 30 cents per dozen; $1.75 per 100; per 1,000 $15.50.

GOLDEN SPUR. "Mother" Bulbs. Extra quality 6c each; 60c per dozen; $2.50 per 100.

RICOLOR VICTORIA. A comparatively new variety, perianth creamy, trumpet rich yellow, delicately perfumed; excellent for pots. 4 cents each; 40 cents per dozen; $2.75 per 100; per 1,000 $28.00.

EMPRESS. Perianth snow-white, trumpet rich yellow, serrated and flanged at the edges, large in outline and of rare beauty for cutting. 3 cents each; 30 cents per dozen; $1.25 per 100; per 1,000 $15.95.

EMPEROR. A magnificent flower; perianth deep primrose; trumpet large, rich yellow. Should be largely grown in flower beds, borders, or naturalized in grass; it is one of the finest Daffodils in cultivation and much prized for cutting. 3 cents each; 35 cents per dozen; $2.50 per 100; $13.50 per 1,000.

POETICUS (Pheasant's Eye, or Poet's Narcissus). Flowers large, snow white, with beautiful cup suffused with bright orange-red; blooms in May; very fragrant. 15 cents per dozen; 75 cents per 100; $4.50 per 1,000.

POETICUS ORNATE. The most perfect form of the Poet's Narcissus. It is more symmetrical than the old Poetica and blooms a month earlier; flowers large, pure white, cup margined with scarlet. 20 cents per dozen; 85 cents per 100; $7.50 per 1,000.

PRINCESSES. Very early. This is one of the most popular winter-flowering and forcing varieties grown. Flowers large, perianth sulphur, an immense rich yellow trumpet. 3 cents each; 20 cents per dozen; $1.00 per 100; per 1,000 $9.50.

ALBA PLENA ODORATA (Double Poet's Narcissus, or Gardenia Daffodil). Double, pure white, very sweet scented. This beautiful variety cannot be forced. It succeeds best planted on rather heavy soil, in partial shade, and where it will not suffer from lack of moisture. Each 3 cents; 15 cents per dozen; 75 cents per 100; per 1,000 $6.50.

ORANGE PHOENIX (Eggs and Bacon). Light citron, with orange center; an excellent flower for forcing. 3 cents each; 25 cents per dozen; $1.25 per 100; $11.00 per 1,000.

Sweet Scented Jonquils

(Narcissus Jonquilla and Odorans.)

All of the Jonquils are prized for their graceful, golden, fragrant blossoms and the ease with which they may be grown. Half a dozen bulbs can be put in a 6-inch pot, and with the same treatment as recommended for Hyacinths a fine display can be had from January to April. Their cost is so trifling that liberal plantings should be made outdoors. A clump of 50 or more bulbs put here and there among shrubbery or interspersed in the hardy border or naturalized in the grass gives an indescribably rich effect in the early spring, while a vase of the cut blooms will fill a room with the rich, spicy odor.

SINGLE SWEET-SCENTED (Narcissus Jonquilla). Rich yellow; not as large a flower as the others, but most fragrant. 16 cents per dozen; 75 cents per 100; $4.00 per 1,000.

CAMPERNELLE RUGOSUSUS. The largest flowering; a handsome flower; color pure yellow; very fragrant. 15 cents per dozen; 85 cents per 100; $7.50 per 1,000.

DOUBLE SWEET-SCENTED. Full double golden yellow. 25 cents per dozen; $1.60 per 100; $13.50 per 1,000.

PAEONY FESTIVA MAXIMA WILL "MAKE YOUR GARDEN GLAD"
Miscellaneous Bulbs For House and Outdoor Culture

**ALLIUM.**
An exciting variety for winter flowering bulbs. They bloom from the base, with green stamens borne in large loose umbels; 6 for 10 cents; 15 cents per dozen; $1.00 per 100; 500, $10.00.

FREESIA REFRRACTA ALBA.
Of all South African flowering bulbs, the Freesia is undoubtedly the best known and most esteemed. The gracefully branched, fragrant flowers are of luxuriant bloom, and being freely produced, are profitable for commerce purposes, and satisfactory to amateurs. If planted early they may be had in bloom for Christmas. Plant eight or ten bulbs in a 6-inch bulb-pan, covering them one inch. The peculiar beauty of these flowers to the average person and the great value for cutting, have made it immensely popular.

**Giant flowered CROCUS.**
One of the earliest of spring flowering bulbs, and should be sown in the fall. Plants in large groups CROCUS are very striking, planted either in blocks or separate colors or mixtures. They can also be planted in the lawn scattered promiscuously, and the effect will be very striking. They can be left undisturbed for years and will increase in quantity of bloom. They do not interfere with the lawn. *Winter's Named CROCUS.*
The bulbs of these are three or four times the size of the common CROCUS, about an inch in diameter; they are sure bloomers, and finer flowers than bulbs ordinarily sold.

**Plant CROCUS in the Lawn.**
*They will make a grand showing in early spring this year.*

**OXALIS.**
**Snowdrops and Scillas**
ARE ALSO DESIRABLE FOR PLANTING IN LAWNS, MEADOWS, WILDS, and WOODLANDS.

**SNOWDROPS (Galanthus).**
The charming Snowdrop is the first of all flowers to herald the approach of spring. It can frequently be seen in bloom when the ground is white with snow, as it takes every advantage, and hastens to display its graceful snow-white bells before the winter has disappeared.

**ORNITHOGALUM ARABICUM.**
(Star of Bethlehem.)
One of the most striking flowering bulbs. As an Easter decoration it is superb. Its immense spike of pure white flowers is simply grand. Not hardly except in southern states; 5c each; 15c for 25c per dozen, postpaid.

**AUTUMN SOWING OF "HARDY EVERGREEN" LAWY SEED WILL SHOW BOUNTIFUL RESULTS NEXT SPRING.**
**Hardy Perennials**

"THE FLOWERS OF OUR GRANDMOTHER’S GARDEN"

Planted this Fall, They Will Bloom Freely Next Summer and Each Year Thereafter. You cannot have too many of them.

**ASTER—NEW ENGLAND**
Four feet high at maturity. Blooms in August and October. Deep purple blossoms. This is a native, with blooms of purple flowers with a yellow center. Thrives well in shady locations and in any soil. Has a bloom often two inches across.

**BACHELOR BUTTONS**
Though very common, it is always popular. Various colors.

**BELLFLOWER, CHINESE—Campanula**
Three feet high at maturity. Blooms from July to September. Blue blossoms. Produces bell-shaped flowers which are very large, covering the entire stem throughout its whole length.

**BLEEDING HEART—Dicentra**
Three feet high at maturity. Blooms in May and June. Red blossoms. A very beautiful plant, with its long, curved sprays of red hearts with white markings. It produces ornamental foliage, which is both spreading and graceful.

**BOLTONIA—Asteroides**
Four feet high at maturity. Blooms from July to October. Large white tinged with pink, or rosy purple blossoms. Very showy and fine. A most desirable aster ever way considered.

**BURNING LOVE or LAMP FLOWER—Lychnis Chalcedonica**
Blooms in June and July. Brilliant scarlet blossoms.

**CHRYSANTHEMUM, SUMMER or GOLDEN GLOW**
Six feet high at maturity. Blooms August and September. Yellow blossoms. Of native growth, but of recent introduction. Its reputation is well assured, and the plant is in great demand. It is of remarkable beauty, with its profusion of rich, golden-yellow flowers and fine cut-leaved foliage. In fact, nothing is just like it. No matter where planted, singly or in masses, or among other plants or flowers, the Golden Glow is most distinguished in appearance. It will grow anywhere, and under almost any condition.

**CHRYSANTHEMUM MAXIMUM**
Large white flowers blooming throughout the summer. Very showy.

**COLUMBINE, ROCKY MOUNTAIN—Aquilegia**
Two feet high at maturity. Blooms June to August. Blue and white blossoms. This most attractive variety, both in foliage and flowers, is very rare. Colorado is its home. To grow well the soil should be well drained.

**COREOPSIS LANCEOLATA or TICKSEED**
One to three feet high at maturity. Blooms throughout the summer. Very showy and blooms freely.

**DAISY—SHASTA or CHRYSANTHEMUM**
Large white flowers, blooming throughout the summer.

**DIANTHUS BARBAATUS or SWEET WILLIAM**
Produces flowers of a great variety of colors. Very hardy.

**Hardy Vines**

**AMPELOPSIS VEITCHII.**
(Boston Ivy.)
Climbs firmly to the side of a house or wall and will soon form a perfect mass of foliage. A beautiful climber. In autumn this unique plant assumes its greatest beauty, changing until it is a glowing mass of the brightest shades of crimson, scarlet and orange. Hardy. Strong vines, each, 30c; extra size plants, each, 50c.

**Quinquefolia** (Virginia Creeper). Used for the same purpose as Boston Ivy. Extra strong, 50c each; doz., $3.50.

**HONEY SUCKLES.**
For real home vines, to be near you, climbing over your windows and doors, there is nothing prettier than sweet scented Honeysuckles.

**Hall’s Japan.** A strong-growing, almost evergreen sort; flowers pure white, changing to yellow; fragrant. Covered with flowers from July to November. Large plants, each 50c.

**SHASTA DAISY**
Hardy Perennials Continued

GARDEN PINK—Dianthus Plumarius
Nine inches high at maturity. Blooms in July and August. Pink blossoms. A desirable edging plant long in favor, bearing beautiful silver foliage in thick tufts. Its flowers are very fragrant.

GAillardia Grandiflora or BLANKET FLOWER
Blooms from early summer to autumn. Yellow or purple blossoms. Very ornamental and hardy plant.

IRIS, GERMAN
Absolutely hardy and increases in size each year. Very free blooming. Finest named sorts.

IRIS—JAPANESE
Flowers differ from the ordinary kinds in being broad and flat. They succeed best in a moist soil and thrive best in part shaded spots. Our stock includes pure white, azure blue, cobalt blue, deepest purple and dark red, in single and double forms and mixtures of colors in strips and spots.

LARKSPUR—Delphinium
A tall growing plant of magnificent spikes of blue blossoms. No plant will afford greater satisfaction.

PENTSTEMON—BREAD TONGUE
Five feet high at maturity. Blooms in July. Bright scarlet flowers. A very ornamental plant which produces flowers in great abundance.

MONARDA (Mint)
Two to three feet high at maturity. Blooms June to August. Scarlet blossoms.

MONARDA (Mint)
Same as above except the blossoms are blue.

POPPY—Papaver Orientalis or ORIENTAL POPPY
Two to three feet high at maturity. Blooms in June. Scarlet blossoms.

ROSE MALLOW—Hibiscus

RUDBECKIA—Speciosa or CONEFLOWER
Two to three feet high at maturity. Bright yellow blossoms with brown purple conical discs. A much esteemed plant on account of its flowers and deeply incised foliage.

SHASTA DAISY—or SUMMER CHRYSANTHEMUM
One to two feet high at maturity. Large white flowers. Blooming throughout the summer.

SWEET WILLIAM—Dianthus Barbatus
This hardy plant produces flowers of a great variety of colors; most esteemed and valuable.

TANSY—CRISP LEAVED—Tanacetum

YUCCA FILAMENTOSA or ADAM’S NEEDLE
Three feet high at maturity. White, bell-shaped blossoms. An interesting and tropical appearing plant, which will endure any of our northern winters, and is therefore valuable for those localities where flowering plants are scarce. It is an evergreen perennial, throwing up in the middle of summer flower stalks 2 feet in height, bearing a profusion of creamy-white bell-shaped blossoms.

LACK OF SPACE PREVENTS OUR LISTING OUR COMPLETE LINE OF PERENNIALS. WE CAN, HOWEVER, SUPPLY ALL STANDARD SORTS AT MARKET PRICES.

PHLOX—HARDY
These are justly esteemed as the finest of herbaceous plants. They are of dwarf habit, of very easy culture, and throughout the season yield a profusion of bright, showy bloom. They are hardly equalled by any other hardy plant for the decoration of the garden.

FRANCES COPPER, white, red center. 3 ft. high
JEANNE DE ARC, white. 2 ft. high
LA VOGUE, pale pink. 2 ft. high
LOETANIR, red. 3 ft. high
MADAM ANDRY, pink. 4 ft. high
MARY, pale pink. 3 ft. high
ORNAMENT, pink. 4 ft. high
RICHARD WALLACE, white, pink. 3 ft. high
THE QUEEN, white. 3 ft. high
STROKES PLANTS. Each, 15c; doz., $1.50
CLUMPS. Each, 25c; doz., $2.50

Our list also embraces the following rare collection. Within the past five years many have been prize winners at shows.

BERRANGER. Blush rose
BOULE DE FEU. Flamy scarlet, dark eye
CEQUILETIER. Brilliant orange scarlet
HONOR. Lavender-edged white
ECLEUR. Rich purple-carmine
GLORIA. Lavender, purple center
LE SOLEIL. Soft rose pink
MONTAGUARD. Deep rich magenta
PEARL. Clear white

For blooming roots, each. 35c

FOR COMPLETE LIST OF PEONIES SEE PAGE 6.
Hardy Ornamental and Flowering Shrubs

FOR FALL PLANTING
(Ready About Oct. 29th)

NOTE—Our list herein is made up from varieties that we know will succeed with fall planting. For spring planting we can supply some hundreds of varieties and which will be fully described in our 1910 catalogue.

BARBERRY, GREEN—Berberis Vulgaris
Blooms in June.
Yellow blossoms.
Where a dense spiny low fence is desired this is the best.
2 to 3 ft. 35c to $2.00

ELDER, GOLDEN—Sambucus Nigra Aurea
White blossoms.
Blooms in June.
Where it is desired to produce the richest color, this shrub should be planted in a sunny spot.
3 to 6 ft. 25c to $1.00

GOLDEN BELL or Forsythia Fortunei
Blooms in April.
Yellow blossoms. 25c to $1.00

HONEYSUCKLE—Morrowii or Japanese Honeysuckle
Blooms in July.
White blossoms.
This variety is at the height of its beauty when covered with bright red fruit from August until late in the Fall.
2 to 4 ft. 75c to $2.00
Hardy Ornamental and Flowering Shrubs

(continued)

HONEY SNUCKLE—Tartarian
Blooms in June.
White, pink and red blossoms.
2 to 6 ft.
25¢ to 50¢

HYDRANGEA PANICULATA
Blooms in August and September.
White blossoms.
This rare sort blooms earlier and longer than the ordinary variety, for the reason that only a small part of the panicle is in flower at once.
1 to 3 ft.
25¢ to 50¢

LILAC, SYRINGA
Blooms in May.
These always reliable varieties, the purple and white, are still indispensable, when shrubbery is desired. They bloom best grown in rich soil, but will thrive under all conditions.
2 to 6 ft.
25¢ to 80¢

LILAC, GERMAN PURPLE
Blooms in May.
Deep purple blossoms.
Of deeper shade than the common variety. Imported.
3 ft. high, $1.00. Extra fine heavy plants, $5.00

LILAC, PERSIAN
Blooms in May.
Reddish purple blossoms.
2 to 5 ft.
35¢ to $1.00

MOCK ORANGE—Philadelphus Coronarius
Blooms in June.
White blossoms.
A beautiful shrub with pure white highly scented flowers.
25¢ to $1.00

SPIRAEA, VAN HOUTTEI (Bridal Wreath)

PRIVET, AMUR—Ligustrum
Blooms in June and July.
White blossoms.
This variety is similar to the California Privet, except that the Amur is hardy here. Its habit is upright, rendering it possible for trimming in any shape desired.
2 to 3 ft.
25¢ to 50¢

PURPLE FRINGE or SMOKE TREE—Rhus Cotinus
Blooms in June.
White blossoms.
This shrub, besides being beautiful and distinct, with its large bunches of feathery flowers, is remarkable chiefly because it appears to be covered with a cloud of smoke.
2 to 5 ft.
25¢ to $1.00

QUINCE—(Cydonia Japonica)—Japan Flowering Quince
Blooms in May.
Scarlet blossoms.
This variety, too, is frequently used as a hedge, as it bears pruning well, has small thorns. It is a bush of many stems, and the flowers precede the leaves.
It bears a fragrant orange fruit.
2 to 3 ft.
25¢ to $1.25

SNOWBALL—Viburnum Opulus Steriffs
Blooms in June.
White blossoms.
While this is an old shrub it is not the less desirable, as it is very showy and thrives in the shade.
3 to 7 ft.
25¢ to $1.00

SNOWBERRY—Symphoricarpus Alba
Blooms in July and August.
Pink blossoms.
On account of its showy white berries, and because of its drooping habit later in the season, this shrub is much in use as a trimmer.
2 to 4 ft.
25¢ to $1.50

A BED OF LILIUM AURATUM PLANTED THIS FALL WILL MAKE A GRAND SHOWING NEXT JULY.
Hardy Ornamental and Flowering Shrubs—Continued

SPIRAEA VAN HOUTTEI—Bridal Wreath
Blooms in June. White blossoms. Without doubt the finest variety of the collection. At the flowering season in early June the plant is covered with a mass of large white flowers. Very beautiful.
2 to 4 ft.
25¢ to $1.25

STRAWBERRY TREE—Eunoynus
Blooms in June. Purple blossoms. Sometimes called the Spindle Tree or Burning Bush. It is a tall native shrub, and is suitable for mass-planting. Thrives well in the shade and in any soil. Its charm lies in its scarlet fruit, which it yields in showy profusion.
3 to 7 ft.
50¢ to $2.00

SULAMICH, CUT-LEAVED—Rhus Typhina Lacinata
Blooms in June. Green blossoms. The sub-tropical effect of this variety is due to its deep red cut compound foliage. It retains a low growth, and usually becomes a bright crimson in the fall.
1 to 3 ft.
35¢ to $1.50

VIBURNUM OPLUS, or HIGH BUSH CRANBERRY
The foliage of this variety is large, showy, and dark, and its growth of flowers and fruit is quite attractive, and for planting near the street is very suitable. Does well in shady localities. 1 to 3 ft. high.
25¢ to $2.00

WEIGELIA ROSEA
Six feet high at maturity. Blooms in May and June. Rosy pink blossoms. Of easy culture. In growth it is strong, broad and graceful.
1 to 3 ft. high.
35¢ to $1.00

FOR HARDY VINES SEE PAGE 14

Shade and Ornamental Trees

POLUAR—CAROLINA—Populus Moesilfera
We offer the seedless form of this variety, which creates no litter, for lawns or screens. It stands smoke and soot, thrives in sandy soil, and is a quick grower.
2 to 7 inches in diameter $1.00 to $2.00

PLUM — PURPLE LEAVED—Prunus Pissardi
The finest purple-leaved small tree of recent introduction. Transplants easily. The beautifully tinted foliage is retained until late in the autumn.
6 to 8 ft. high $2.00 to $3.00

Poplar

CATALPA SPECIOSA
We grow only the variety which thrives in sand. With its large leaves and fragrant flowers in great panicles, it is decidedly tropical-looking, while it is a rapid grower. Perfectly hardy.
2 to 3 ft. high $1.00 to $2.00

CRAB APPLE—BECHTEL’S DOUBLE FLOWERING—Malus Ioenis Bechtlei
Originating in the West it is unlike the other sorts from Japan and China, in that it is not subject to the attacks of borers. It is a double variety and very showy, and is without doubt the handsomest ornamental crab grown.
3 ft. high $2.00

ELDER—DIX—Acer Negundo
Of irregular, spreading habit, and rapid growth. Desirable as a covering for unsightly objects. Belongs to the maple family.
2 to 3 in., each $1.50 to $2.50

ELM—AMERICAN—Ulmus
They may be grown with spreading tops. In this form they may be used for planting on the lawn for shade. The finest street tree.
10 to 12 ft.
$2.00 to $3.00
8 to 10 ft.
$1.00 to $2.00

ELM—CAMPERDOWN—Ulmus Pendula
One of the most picturesque drooping trees for individual lawn planting. Stands from five to seven feet high. The price is based on the symmetry and size of top.
As selected, from $2.00 to $5.00
HORSE CHESTNUT—Aesculus Hippocastanum
The variety we offer is of the eastern sort. It is round-headed, and has showy, white flowers. A most attractive lawn tree, thriving well in partial shade.
8 to 10 ft. high $1.00 to $2.00

LINDEN—AMERICAN—Tilia Americana
A beautiful and handsome native tree, with large leaves and fragrant flowers. Our trees are suitable for line or formal planting. Can supply uniform trees in any quantity.
2 to 3 inches in diameter $2.00 to $9.00

MAPLE—NORWAY—Acer Pintanoiodes
A large, handsome tree for all conditions. Of spreading, rounded form, with broad, deep green, shining foliage. Most desirable for the street, park or garden.
2 to 4 inches in diameter $3.00 to $10.00

MULBERRY—TEXAS’ WEEPING—Morus Alba Pendula
The most graceful and lovely weeping tree in existence. Forms a perfect shaped head with long slender, willowy branches drooping to the ground in light, airy gracefulness, delicacy of form and motion. It is without a rival. It has beautiful foliage, is hardy, safe and easy to transplant. Admirably adapted for small or large grounds or for cemetery planting.
2 to 4 years old $2.00 to $5.00

NOTE: We can supply all shrubs and trees in commerce at advantageous prices. If you do not find in this list the desired stock, please ask us for prices on what might be wanted.

HYDRANGEA PANICULATA WILL PRODUCE A GRAND LAWN EFFECT.
**SELECTED**

**Northern Grown Hardy Fruits**

In the assortment named herein we have mentioned only those varieties that succeed best in the northern country, such apples and crab apples as we offer are vigorous and iron-clad, all especially recommended by our experiment stations. The list of each fruit is arranged as to time of ripening.

**SUMMER APPLES.**

- **Yellow Transparent**—Pale yellow, md., earliest, bears young.
- **Red Astrachan**—Crimson, yellow shaded, large, prolific, good for cooking.
- **Duchess of Oldenburg**—Yellow, red shaded, large, prolific.

**FALL APPLES.**

- **Welshy**—Crimson, md., prolific, late fall.
- **Grimes' Golden**—Golden yellow, md.
- **Northwestern Greening**—Pale green, md.
- **Mann**—Deep yellow, md.
- **Ben Davis**—Red striped, lg.

These are all abundant annual bearers of fine quality and extra long keepers. Good for market or home use.

The larger sizes bear freely after first season.

- **6 to 7 feet high, each** ....... **75c to $1.00**
- **2 inches in diameter, each** ........ **2.00**
- **3 inches in diameter, each** .......... **5.00**

**CRAB APPLES.**

- **All Have Fragrant Flowers.**

It is not an uncommon thing to grow this fruit for ornament and flowers. Of course their proper sphere is in bearing desirable fruit for cooking, etc. Some are not unpleasant to eat out of hand.

- **Whitney**—Yellow, splashed with carmine, lg., first and best, luxuriant. Often used as an ornamental tree.
- **Transcendent**—Yellow and red, lg.; handsome and prolific.
- **Hyslop**—Dark red lg.; late, showy and desirable.

The larger sizes bear freely after first season.

- **6 to 7 feet high, each** ....... **75c to $1.00**
- **2 inches in diameter, each** ........ **3.00**
- **3 inches in diameter, each** .......... **5.00**

**DESIRABLE GRAPES.**

We mention only those ripening early enough for this climate. All are finely flavored.

- **Moore's Diamond**—White; few seeds, almost without pulp; berries adhere well to the bunch.
- **Worden**—Black; large berry and bunch, best flavor; ten days earlier than Concord.
- **Concord**—Black; most popular; parent of the two preceding sorts.

4-year-old vines, each ............... **50c; doz., $4.50**

2-year-old vines, each .............. **25c; doz., 2.50**

**AMERICAN GOOSEBERRIES.**

- **Downing**—Light green; large; heavy; annual cropper.
- **Red Jacket**—Red; large, smooth; most free from mildew.

2 feet high, each .................. **25c; doz., $2.50**

3 feet high, each .................... **50c; doz., 4.50**

**RELIABLE PRODUCTIVE PEARS.**

- **Pleasant Beauty**—Yellow and red; lg.; juicy, melting, beautiful; profuse bearer.
- **Kieffer**—Rich yellow, lg.; never rots at core; bears young and heavily; best for canning.
- **Nee,** shapely trees, 7 to 8 feet high, each .......... **$1.25**

**CURRANTS.**

- **Cherry**—Red, large berry, short bunches; stout erect grower.
- **Far's Prolific**—Red, long bunches, large berry; valuable for table use.
- **White Grape**—White; very large, sweet berry; early, rapid picker.

Lee's Prolific—Black; large in berry and bunch; very prolific; fine for cooking.

- **2 feet high, each** ............... **25c; doz., $2.50**
- **3 feet high, each** .............. **50c; doz., 4.50**

**CHERRIES.**

We can name only one variety for this region, the Early Richmond; red; medium; acid flavor; vigorous; bears young, most reliable, best for cooking.

- **6 feet high, each** .............. **75c to $1.00**
- **8 feet high, each** .............. **1.00**
- **2 1/2 inches in diameter, each** ...... **3.00**
- **3 inches in diameter, each** .......... **5.00**
- **4 inches in diameter, each** .......... **8.00**

**HARDY PLUMS.**

Those named are sweet, with a pleasant flavor, of good quality, and hold on long.

- **German Prune**—Dark purple, large; freestone; only satisfactory European plum.

**Hawkeye**—Purplish red; lg.; freestone; Iowa origin; very popular.

- **7 to 8 feet high, each** ................. **75c to $1.00**

**RASPBERRIES.**

- **Cuthbert**—Red; very large, sweet; carries well.
- **Turner**—Black; best black cap; vigorous; very productive.

3 stem plants, each .................. **.15c**

5 stem plants, each ................... **.26c**

**RHUBARB.**

- **Linnaeus**—Pie-plant; large early and tender.

Small size, each .......... **25 to 50c**

Large clumps, 1 foot square, $1.00 each.

**OUR COMPLETE SEED CATALOGUE** will be published in JANUARY, 1910. A copy FREE for the asking
### Pot Grown Strawberry Plants

These pot-grown plants will produce a moderate crop the first season if ordered before September 30. Varieties marked (P) have imperfet flowers; they will not produce well unless every third or fourth year; or plant is a perfect-flowering variety, as are all that are not marked.

**Price, pot-plants, 50 cents per doz.; $2.00 for 50; $3.50 per 100, by express.**

*Senator Dualap, Parson’s Beauty, Sample (P), Johnson’s Early, August Rider (early), Wonder, Gandy, Kitty Rice, Braudywine, Babach’s No. 5, Harvest, and the above varieties, Retail prices: September 1st per 100, $8.25; per 1,000, $18.00.*

**ASPARAGUS ROOTS.**

(Plant in Fall or Spring.)

**Bonvallet’s Giant.**

This valuable introduction is the best for both green and white grass.

**PRISES.**

2-Year-Old Roots.

**PULVERIZED SHEEP MANURE—THE BEST “ALL AROUND” FERTILIZER.**
Ferns

THE BOSTON FERN
(Nephrolepis exaltata)

Thrives in all rooms, gas or furnace heat does not seem to injure it. Fronds are often six to seven feet long, a six-inch plant increasing to 10-inch size in a year, besides making many new fronds. A good size plant contains from 20 to 30 fronds, and the fresh ones continually coming out with new growth are very beautiful.

4-inch pots, bushy plants, each $0.50

4-inch pots, extra large and full, each $1.00

1-inch pots, extra fine plants, each $2.00

Specimen plants, each $4.00

THE NEW OSTRICH PLUME FERN,
“WHITMANI.”

The most valuable Nephrolepis of the Ostrich Plume type yet introduced. Not only is it of dwarfer and more compact habit than the N. Exaltata, but the pinnae becoming more deeply divided gives the plant a much more graceful appearance, while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern.

1st size, 75c each; 2d size, $1.00 each; 3d size, $2.00 each.

TABLE FERNS FOR FERN DISHES, ETC.

Each, 15c; any 2 for 25c or the 5 for 50c. Cyrtomium Falcatum (Holly Fern)

This has smooth, rich yellow or green fronds with round leaves. Pteris Albo Lineata. A variegated variety, white and green. Pteris Whitnagi. This is the finest fern for fern pans and house use. Created, Pteris Feralula Cristata, Dwarf and bushy, graceful foliage. Naden Hair. A very graceful Fern and easily grown.

ASPARAGUS OR LACE FERN.
(Asparagus Plumosus Nana)

A beautiful plant, with bright green, gracefully arched foliage, surpassing most of the large Ferns in grace, delicacy of texture and richness of color. The fronds are 12 to 15 in. in length and taper to a point from a width of 12 in. One of the most beautiful decorative plants. Each, 15c; 4 for 50c; 12 for $1.00. Larger plants, each 25c, 50c, 75c and $1.00 (according to size).

ORNAMENTAL ASPARAGUS.
(Asparagus sprengeri)

A beautiful decorative plant for porch, hanging baskets, lawn areas and for planting in window or veranda boxes. But its greatest and effective use is as a house plant, and it can be taken indoors for winter growing after its summer use is over.

It is a vigorous grower, producing sprays 5 to 4 ft. long, of fresh green, feathery foliage.

1st size plants, each 15c; 4 for 50c; 12 for $1.20.

4 in. pot plants with sprays 5 to 10 in. long, each 25c; doz. $2.00.

Larger sizes, each 50c and $1.00.

Hanging baskets 10 in. in diameter with sprays 15 to 24 in. long, each $2.00.

Decorative Plants

Ficus Elastica, India Rubber Tree. The large shining green leaves endure the dry air of a living room as well or better than any other plant. This is very everybody likes it. Our plants are very vigorous. Plants 1 ft. high, each 50c; 15 inches high, each $1.00; 2 ft. high, $2.00.

NORFOLK ISLAND PINE, Specimen Excelsa. This beautiful house plant resembles the pine somewhat in appearance, though much finer in texture. Plants 11 inches high, each 50c; 14 inches high, each 75c; 15 inches, $2.00.

Pandanus Veitchii. Leaves are light green, beautifully marked with broad stripes of pure white and gracefully curved. Each 15c; larger plants, from $2.00 to $5.00 each.

Aspidistra Variagata. One of the most satisfactory of house plants on account of its extreme hardiness. In fact it is commonly called the “Iron Plant” owing to the fact that it thrives even when moved neglected. Furthermore, it continues to send up new leaves from the root.

Large plants with about 15 leaves, 12 to 20 inches high, each 50c. Specimen plants, $2.50, $4.00, $5.00 each.

Palm

Areca Lutescens. One of the best decorative plants, always graceful and artistic. Plants 19 inches high, 30c; 20 inches high, each 50c; 2 feet high, $1.50.

Kentia Palm. The most popular parlor palm we grow. Hardy and rugged under all kinds of treatment. Plants 15 inches high, each 50c; 15 inches high, each 75c; 2 feet high, $2.00.

Latania Borbonica. Of easy culture and rapid growth. Large broad fan-shaped, glossy, dark green leaves. 18 inches high, 30c; 18 inches high, 50c; 30 inches high, $2.00.

Phoenix Redinata. (Date Palm.) One of the hardiest of palms; 5-inch pots, each 50c.

UMBRELLA PLANT
(Cyperus Alternifolius)

A splendid aquatic plant throwing up stems 2 to 3 ft. high, surmounted at the top with leaves. An excellent house plant, thriving in any good soil and always presenting a fresh green attractive appearance. 3-in. pots, each 15c; 4-in. pots, each 25c.
WINTERTON'S SEED STORE

Winterson's High Grade Poultry Supplies, Grains, Etc.

BEAUTIFUL LAWNS
ARE OBTAINED BY USING

“Hardy Evergreen” Lawn Seed
ANALYZED AS TO PURITY—TESTED AS TO GERMINATION
Absolutely the Best Lawn Seed that Experience can Suggest, or that Money can Buy.
AND “COMBINATION” LAWN FERTILIZER

“Hardy Evergreen” Lawn Seed
SOWN DURING AUTUMN WILL PRODUCE
Excellent Results
THE FOLLOWING SPRING

Sample Lawn Produced from “Hardy Evergreen” Lawn Seed.

“Hardy Evergreen” Lawn Grass Seed has been used with the greatest success on thousands of lawns. This mixture is composed of a number of varieties best adapted to the purpose. Some of the grasses are early, others medium, and still others late. By this means, as soon as one variety has ceased to be at its best, others are ready to take its place. Another important point is that by the use of many grasses, a much heavier sward is obtained, than is possible with any two or three sorts, as no matter how much of one kind of seed may be sown on a given space, it will only support so many plants. If another variety, however, is sown in connection with it, a largely additional number of plants can be maintained, as they thrive on different elements in the soil. This mixture is unequalled for tennis and croquet grounds. Prices, per lb. 25c; 1 lb. $1.00; 10 lbs. $1.50; 25 lbs. $2.00.

SPECIAL MIXTURES. We are at all times glad to make up special mixtures of lawn grass to meet the requirements of existing conditions. We have been very successful in combinations of grasses for terraces, shady places, exposed situations, etc.

Winterson’s “Shady Place” Lawn Mixture
A Lawn Mixture for Shaded Places.

On almost every lawn there are shadied places where difficulty is experienced in getting the grass to grow. By the use of our “Shady Place” Mixture, these unsightly spots can usually be made as green and beautiful as the rest of the lawn. There are certain grasses which thrive naturally in such situations, and these we have combined, after much experiment, into the above named mixture. Our “Shady Place” Mixture has brought relief and satisfaction to many who have for years been annoyed by these disfiguring spots on otherwise beautiful lawns.

QUANTITY REQUIRED FOR BOTH MIXTURES. In order to secure quick and satisfactory results, a liberal quantity of Lawn Grass Seed should be used, as spots not seeded will surely be occupied by weeds. The usual rule is one pound for 300 square feet, four to six bushels for an acre.

Winterson’s “Combination” Lawn Fertilizer

“COMBINATION” LAWN FERTILIZER is a fertilizer especially prepared for Lawns. It possesses in the highest degree and concentrated form those constituents best calculated to Nourish the Grass, promote its Luxuriant Growth and produce the Dark Green Color so greatly admired. It is not only the Most Perfect Lawn Dressing that has been devised, but it is also the most pleasant to handle, being Non-Odorous, so that its liberal use on a lawn cannot be detected by any unpleasant odor. Being dry and fine it is easy to apply, and imparts a Vigorous Growth to the grass. We prepare but one kind of Lawn Dressing. This we do not believe can be excelled. Per 10 lbs., 35c; 50 lbs., $2.50; 100 lbs., $5.00. (Sow in the Fall.)

Our Spring Catalogue to be issued about January 1st, 1909, will contain a complete list of Flower and Vegetable Seeds, Hardy Shrubs, Vines, Peonies, etc. If interested kindly send your name for a copy. It is free.
